

# Our Worldwide Network of Project Partners

**American Cargoservice, Inc.** is a proud member of WCA Projects with qualified project logistics partners across the globe.

**WCA Projects Network** is the largest group of independent freight forwarders dedicated to the unique services of project & heavy lift logistics. WCA Projects has the strength of a worldwide team that surpasses any multi-national forwarder in service coverage, number of employees, flexibility, and local knowledge.

# Only Qualified Project Forwarders Are Selected to Join WCA Projects Network

*Moved by a WCA Projects member, World Logistics Consulting*

**WCA Projects** pre-qualifies all members. They review completed project case studies, obtain references, company registration/licenses, ownership, and reviews all reported or observed service, payment, and ethics issues of our members.

# American Cargoservice, Inc. Project Partner Locations

**American Cargoservice, Inc.** can partner with over 398 worldwide Project & Heavy Lift qualified members in 110 countries and 213 cities around the world.

# Key Advantages of Independent Project Forwarders

- Independent forwarders with local ownership know the local conditions better than a large multinational forwarder
- Independent forwarders have more flexibility to choose the partner best suited to handle the specific business in each location. Oil & Gas, Wind Turbines, Power Generation – many Project members specialize in particular industries.
- Business owners take great pride in their own business and take special care of their reputation and service quality
- Only the business owner has full authority and can respond fast on last minute changes and urgent problem solving
- You are a VIP to an independent forwarder. Your business may be 'just another job' on a big list of accounts to large multinationals, but you will be a VIP client for an independent forwarder

# Key Advantages of WCA Projects Members

- WCA Network reviews members' qualifications, business licenses and registration, insurance coverage, trade references and experience levels prior to acceptance of membership
- WCA maintains a strict Code of Ethics which all members must sign and adhere to or face expulsion
- WCA Network internally guarantees that members will pay other members or WCA makes the payments
- Members that are financially secure working together in any location have stronger financial coverage and increased stability due to reduced business risk
- WCA members have access to tailored forwarders' liability, errors & omissions, and cargo insurance through our group insurance agency cooperation
- Members routinely share project case studies within the network for evaluation by other members and meet face-to-face yearly at WCA Projects conferences
